PFI Evolution Series

RR-Evolution-22M

The ALL NEW RR-Evolution-22M (3-12x42mm) is the latest innovation in rimfire optics. Designed from the ground up with input from shooters around the globe, this optic is absolutely superior to any other optic for the .22Magnum.

With the new Rapid Reticle BDC design, the RR-Evolution-22M has holdovers out to 300 yards and other new features including Rapid Ranging which allows instant ranging on 9" objects, impeccable BK-7 glass, 3-color illumination, target turrets, a parallax adjustment, and a fast focus ocular. Its 3-12x42mm body offers an effective magnification range and a large objective to gather more light at dusk and dawn.

The RR-Evolution-22M is innovation at its best and will help shooters maximize the precision performance and effectiveness of the .22 Magnum without manual adjustments or calculations,
